May 2016

Dear Saint Mary’s Families,

As new parents to Saint Mary’s School, we would like to introduce you to Magnus Health, which is the service Saint Mary’s School uses to confidentially collect and store information about your daughter’s health and medical needs. Later this month, you will receive an email from Magnus Health notifying you that you need to set up an account for your daughter. This account will remain active throughout your daughter’s tenure at Saint Mary’s School. The email from Magnus Health will provide you with all the information you need to get started and then provide you with instructions at each step of the process.

To ensure that Magnus Health emails are not getting caught in your email filters, please add their email address “secure.magnushealthportal.com” to your whitelist of acceptable emails. For more about how to do that, click here.

When you begin receiving emails from Magnus Health this month, please don’t delay. Simply log on and complete the information required; it’s even easier the second year when all you need to do is update your daughter’s information!

If you need any assistance, please call the Magnus Health Help Desk at 877-461-6831.

Thank you.
